**DETAILED ACTION**

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6-4-03 has been entered.

1. Claims 43 and 49 have been amended.
2. Claim 46 has been cancelled.
3. Claim 65 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 19.
4. This application contains claim 65 drawn to an invention nonelected with traverse in Paper No. 19. A complete reply to the final rejection must include cancelation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.
5. Claims 43, 48, 49, 51-64 are under consideration.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

7. Claims 56-64 are rejected under 35 U.S.C. 102(e) as being anticipated by Fishman (US 6190861, 2-20-2001, filing date 12-14-1995) for reasons of record set forth in the previous office action of 3-28-02 and 12-2-02.

***Response to Arguments***

Applicant's arguments filed 6-4-03 have been fully considered but they are not persuasive. It is noted that claim claims 56, 57, 62 and 63 are drawn to oligonucleotides and rest of the claims are drawn to a kit comprising the oligonucleotide and method of detection. As noted in the previous office action Fishman et al teaches a sequence (SEQ ID NO 3) that has 86% sequence identity over SEQ ID NO 3 of the instant application which would include the recited region of 5620-7590 of SEQ ID NO 3 of the instant application and also includes the oligonucleotides disclosed in SEQ ID NO 7, 8 and 11-14. The patent also teaches methods of detection and other methods as discussed in the previous office action of 12-2-02. Therefore, the invention of claims 56-64 is anticipated by Fishman et al.

8. Claims 43, 48, 49 and 51-55 are free of the prior art of record and are allowable.

**Action Is Final, First Action Following Request for Continued**

Examination under 37 CFR 1.114 All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, THIS ACTION IS MADE FINAL even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a) A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be
